

WHEEL TROLLEY TOWER LIFT

USER-FRIENDLY HANDLING OF WHEELS IN TALL TYRE RACKS

TYRE STORAGE USING THE WHEEL TROLLEY TOWER LIFT

Wheel Trolley Tower Lift is a compact and space-saving truck for the ergonomically correct handling of wheels in extra-tall tyre racks – at heights of up to 6 metres.

Tower Lift has a customised tool at its front which is compatible with our popular Wheel Trolley. The actual handling into and out of the tyre racks is carried out by the use of Wheel Trolleys. The job of retrieving and inserting wheels from and into tyre racks can take place at an efficient pace while allowance is still made for ergonomic considerations.

Wheel Trolley Tower Lift is available in several different models both in relation to lifting height, lifting capacity and type of battery.

FEATURES

- Entry and exit on both sides
- Hydraulic function of front tilting tool
- Equipped with reverse camera and information display
- Three set speeds
- Wheels are handled directly on Wheel Trolleys
- Reduces the needed width for walkways between racks to 1.4 metres
- Efficient and ergonomic handling of wheels
- Available both with standard battery and with Lithium Heat battery package for extra fast charging and 3 years warranty

COMPATIBLE
WITH WHEEL
TROLLEYS

TOWER LIFT OPTIONAL EQUIPMENT

LITHIUM BATTERY

WHEEL TROLLEY TOWER LIFT IS AVAILABLE IN A VERSION WITH LITHIUM BATTERY, BY WHICH YOU CAN OBTAIN THE ADVANTAGES OF THIS BATTERY TYPE:

- Maintenance-free – and no need for replenishing battery water
- Charging time of just 3 hours – against 10 hours for a standard battery type.
- Integrated heat system which makes it possible to charge the battery at a room temperature below 0 degrees Celsius
- No need for “massage” of the battery during periods where it is not used
- Possible to purchase an extra lithium battery package and thereby avoid charging time

IT IS POSSIBLE TO REPLACE A STANDARD BATTERY WITH A LITHIUM BATTERY PACKAGE ON AN EXISTING TOWER LIFT

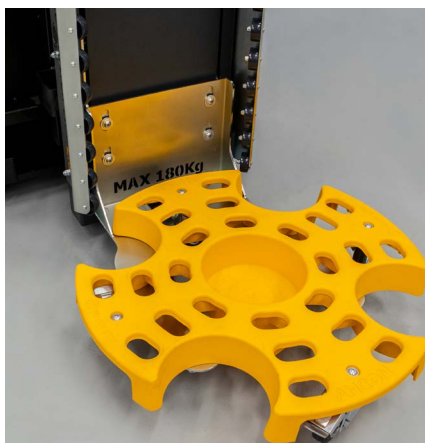

3 YEARS
WARRANTY

OFF ROAD LIFTING TOOL

FOR THE HANDLING OF LARGE WHEELS IN TYRE RACKS THE LIFTING TOOL FOR THE WHEEL TROLLEY TOWER LIFT IS MADE IN A VERSION THAT FITS THE WHEEL TROLLEY OFF ROAD

Wheel Trolley Off Road measures Ø700 mm and has a maximum load of 180 kg – and can thereby be used for van- and 4X4 wheels. The Off Road lifting tool can be retrofitted on an existing Wheel Trolley Tower Lift instead of the lifting tool for Wheel Trolleys in standard size.
