

SAFE INFLATION OF TRUCK TYRES

AHCON TBR ALCATRAZ is a safety inflation cage, that is of a basic design.

The safety inflation cage is made of simplex wire mesh which is a single layer of expanded metal.

The safety inflation cage is fitted with a front door and can be fitted with a Michelin inflating gauge or our PCI 900 computer inflator.

AHCON TBR ALCATRAZ offers safe inflation at the cost of a small investment.

FEATURES

- Front door included
- Made in SIMPLEX wire mesh
- Use with Michelin inflating gauge or PCI 900 computer inflator
- Handles tyres up to 1.150 mm
