

AHCON WHEEL CADDY

THE WHEEL CADDY IS A FUNCTIONAL TYRE AND WHEEL CARRIAGE FORMED AS A SACK TRUCK COMPATIBLE WITH AHCON WHEEL TROLLEYS.

It is an indispensable helping hand when a AHCON Wheel Trolley including wheels is to be transported over slightly longer distances.

The clever caddy is fitted with large wheels, which makes it easy to run on uneven surfaces such as courtyards – even when loaded.

A Wheel Caddy can also be used to move tyres and wheels without having a Wheel Trolley underneath. AHCON Wheel Caddy is available in 2 sizes.

FEATURES
