

## ELECTRIC WHEEL LIFT

### ERGONOMIC WHEEL LIFT THAT REDUCES HEAVY LIFTING WHEN HANDLING WHEELS

The wheel lift ensures ergonomically correct handling of many different wheel sizes and is especially useful when mounting or dismounting large and heavy wheels – including 4X4, SUV and van wheels.

The wheel lift is easy to move around the workshop, as it is equipped with 4 swivel wheels – 2 of which have brakes.

With the WL 80 wheel lift you get an ergonomic tool that is both handy, user friendly and affordable.
