

Q-LINE BATTERY POWERED HYDRAULIC WORKSHOP JACKS

Our series of battery powered hydraulic workshop jacks under the Q-Line brand offers high flexibility for lifting various types of heavy duty vehicles.

The series consists of 4 different models in terms of lifting height and capacity.

The jacks are made of high-quality components, and the performance is both strong and efficient.

It is possible to use Makita batteries in the Q-Line jacks.

When purchasing a Q-Line electro-hydraulic workshop jack, both battery and charger are included.
